

# HANDIWASH

## Features

- Large Filler Opening - allows easy filling
- Water Level Indicator
- Indicator Lamp - illuminates when heater element is operating
- Quality Taps - maintenance free
- A cover moulded from super tough, UV resistant polymers suitable for internal and external applications
- Fold Down Basin - drains automatically when folded up
- Drain Hose, drain hose fitted to the base of the unit for dispersion of used water
- Installation, the unit can easily be mounted to any vertical surface and wired to a 12 or 24-volt power source
- The heavy-duty element uses highly corrosive resistant materials and state of the art electronics. The water element thermostatically controls the hot water temperature to 60° C. The system is also protected by a thermal overload safety device.

### Specifications

Handiwash Weight:

5.5kg Empty, 14.0kg Full

Water Capacity:

8.5 litres

Voltage - Handiwash 12V System:

9.6 Amps at 12Volt DC

Voltage - Handiwash 24V System:

7 Amps at 24 Volt DC

Hot and Cold Taps

Unit is thermostatically controlled

Power Lead connected to vehicles power supply via a relay so unit is only operational when the vehicle ignition is on
