

# SENTRY AIRFRAME SHELTER

PART # SI-1717BG | SI-1717WT

**WESTERN  
SHELTER** SYSTEMS

ISO 9001:2008 Registered Company

The all new Sentry Shelter is well suited for a variety of applications where speed is paramount and manpower is limited. This is our fastest shelter yet, with a deployment time under three minutes. At the same time, the Sentry is also one of the most portable shelters we offer. It's a single package

design that only requires two people to deploy, and offers a weight to useable area ratio of less than one pound per square foot. The Sentry is available in 13 x 13 foot and a 17 x 17 ft models, with modular wall panels, and an easy to install vestibule connection that turns one shelter into a larger complex.

## Key Features and Benefits

- Rapidly deployable by only two people
- Lightweight design allows for a wide variety of transportation options
- Fits in a single package for easy storage
- Modular construction allows for simple connections to other shelters
- Sealable vinyl floor maintains environmentally secure shelter
- Available in Beige (Part # BI-1717GB) and White (Part # BI-1717BWT)
